

SUPER-LOC Discs

**Quick-change convenience,
Uniform finishes, these
High-Quality mini Discs
Cut fast, last long and
can finish all those tight
places quickly.**

Surface Conditioning Discs

Made of thick, reinforced non-woven material infused with aluminum oxide mineral, these surface conditioning discs provide consistent performance and longer life when cleaning, blending, deburring or finishing. Also ideal for removing coating and gasket residue. Grits are determined by color of disc for convenience.

Part No.	Size	Grade	Discs Per Box	Boxes Per Case
0724-06 0724-07 0724-08	2" Dia.	Coarse Medium Fine	25	12
0734-06 0734-07 0734-08	3" Dia.	Coarse Medium Fine	25	6

*Other grits & sizes available upon request

Blue Zirconium Discs

Premium Zirconia grains provides faster and cooler cutting for the toughest jobs. Resin bonded on laminated cloth backing for better performance and durability. Quick-change convenience and smaller disc size gets into hard to reach areas for increased productivity.

Part No.	Size	Grade	Discs Per Box	Boxes Per Case
0727-50 0727-36 0727-24	2" Dia.	50 36 24	25	12
0737-50 0737-36 0737-24	3" Dia.	50 36 24	25	12

*Other grits & sizes available upon request

Back-Up Pads

Designed expressly for use with quick-change **SUPER-LOC** discs that can be mounted and removed with a simple twist. Backup pad assemblies are constructed of durable molded rubber for firm yet flexible support to improve disc performance. Comes complete with steel shaft adaptable to all 1/4" standard air or electric tools.

Part No.	Size	Shaft	Qty Per Case
0720M 0730M	2" Dia. 3" Dia.	1/4" Dia. 1/4" Dia.	16
